RESPONSE TO FINAL OFFICE ACTION

Sir:

Pursuant to the grant of applicant's April 22, 1993 Request for Reconsideration of Petition, applicant responds herein to the Examiner's Office Action (made final) within the shortened statutory period due to expire on June 29, 1993 (see Paper No. 14). Accordingly, no extension fee is required.

REMARKS

This invention relates to methods for designing compounds which inhibit targeted ribonucleic acid ("RNA") and those compounds so designed. Using the methods of this invention, the skilled practitioner can design compounds which inhibit targeted RNAs by binding to specific sites within the minor groove of the targeted RNAs.
